

Figure 1 is a heatmap showing the correlation matrix for 12 datasets. The color scale ranges from 0.15 (light yellow) to 0.90 (dark purple). The diagonal elements are all 1.0. The off-diagonal elements show varying degrees of correlation, with some datasets like 'va-100000-2' and '10000000-1' showing high correlation with each other.
